

ECM in Bosnia

Currently there is one couple who works in a town in the north of the country. Their church building is strategically placed to reach out to both the Croat and Muslim communities, giving them unique opportunities for evangelism and for communicating the true message of reconciliation. They have seen several people come to faith in the Lord Jesus Christ as a result. They also have a concern to reach children from both communities with the gospel and have been praying for help in that area.
