

casa
mitspa

a shelter for
mothers &
babies at risk

www.casamitspa.com

Good news for the new year ! A new start for Casa Mitspa ! From March 1st we are officially the new tenants of this beautiful big house situated in a quiet part of Timisoara.

We will be beginning the long process of getting the house into shape so that we can accommodate mothers in need and their children. Several alterations will be necessary, especially in the kitchen, in order to meet health and safety standards. The house has six bedrooms, a kitchen, a dining room and an office. We need a sum of around 900\$ per room in order to transform this building into a comfortable and safe home for mothers and their new-born babies.

How can you help us ?

- By « adopting » a room
- By making our needs known

In 2016 there were more than 15 pregnant teenagers in crisis in the Timisoara area. The needs are great ! Together we can not only make a difference to these mothers who have lost hope but we can also give their children the chance to grow up in their mothers' care.

Casa Mitspa has now become part of the « Children at Risk » projects of the MLI Foundation (Missio Link International). MLI is an NGO which is in operation since 2001. In 2002 it founded « Casa Debora », a home run on family lines, for young girls and teenagers who had suffered sexual abuse. At the present time it offers social assistance to more than 500 beneficiaries (children, young people and their families) and has developed different programs to combat child abandonment, school drop out and abuse of all sorts in order to encourage the social rehabilitation and professional reintegration of those in its care.

If you want to give new hope to these young mothers or offer a child the possibility of being brought up by his own mother, you can become a partner of Casa Mitspa by supporting this project :
